ROTHAMSTED CONFERENCES.

The booklets in this series contain the Papers and Discussions at the conferences held from time to time at Rothamsted on present-day problems in crop production. The Papers are written by well-known experts and discussed by some of the best practical farmers.

The Growing of Lucerne. 1/6.

The Culture and Manuring of Fodder Crops. 1/6.

Green Manuring. 2/-

The Culture and Manuring of Sugar-Beet. 2/6.

The Art and Science of Cultivation. 2/-.

Power for Cultivation and Haulage on the Farm. 2/6.

Malting Barley. 2/6.

Recent Changes in Systems of Husbandry in England. 2/6.

The Hertfordshire Agricultural Situation: Can it be Improved? 2/-.
